WEDDING CAKE GUIDE

BAKE N' CAKES

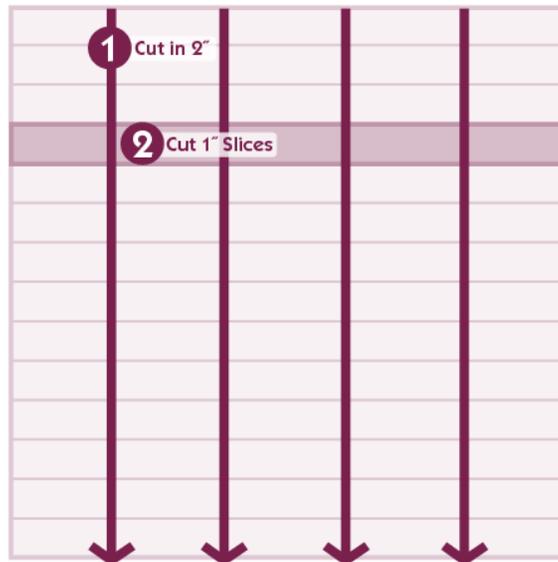

"Butter Makes It Better"

3003 E Kalamazoo St.
 Lansing, MI 48912

How to cut a tiered wedding cake:

SEE BACK FOR VISUAL DIAGRAM

1. Move in 2" from the outer surface and cut a circle. Cut 1" pieces out in the first layer.
2. Cut 1" slices out of the second layer.
3. Cut the center into 4ths, 5ths, 6ths etc. depends on size, and number of servings varies in each tier.
 (each slice should be approximately 1" x 2" x 4 1/2")

Wedding Cake Care

Pickup

Please assure that the cake is decorated to the specifications ordered. If sending someone else please make sure they are able to verify the order for accuracy.

Transportation

We chill the cakes before you pick it up so that they are stable for transportation. Tiered cakes travel best in a flat, level position. Usually the trunk floorboard is best. Please make sure you have room in your vehicle for pick-up. Tiered cakes are not boxed, tall boxes can be flimsy, so they are safer left un-boxed. Remove any potential hazards, such as small objects that may move around during transportation. We do not recommend holding cakes. Drive carefully and avoid slamming your brakes!

Can we deliver?

Of course! Delivery fees may vary depending upon address, date of the delivery, time frame, and setup difficulties. However, they start at \$30 for deliveries in Lansing.

Storage

If you do not plan to serve your cake within a few hours it should be refrigerated. Sometimes cakes that get too warm will form air bubbles under the frosting, begin to lean, or have hairline cracks. Chilling should prevent these issues. Tiered cakes take a little longer to soften and should be pulled out approximately 2 hours before serving (1 hour if it has a filling).

Wedding Information

When do I need to place my order?

The sooner... the better. However; the only stipulations we have is that the order must be placed, finalized, and paid two weeks prior to the wedding date. Payment after this will result in a 10% late fee. Any orders (or payments) made without two weeks notice will only be accepted in cash.

Can we taste your cakes?

We offer 6" tester cakes by order. Please allow two days for orders. The first one is free anyone after that is offered at a reduced price of \$5.25. You may not order the same flavor twice. Don't forget to try a filling!

What about flavor options?

Each tier of your cake can be a different flavor. This is no extra charge. Pick up a menu, or find it online. It lists all of our cake flavors and fillings. Please keep in mind that white butter cream is our standard and that is the best icing for wedding cakes.

Cream cheese or whip cream is not an option for wedding cakes because they need to stay refrigerated. Without refrigeration they lose stability and melt. (They wouldn't last through the reception.)

Wedding Information

Pricing?

Tiered cakes are priced per slice. They start at \$3.50 per slice. The price will change depending upon decorations. The more intricate the artwork becomes, the more expensive the cake will be. Basic decorations such as butter cream roses are more towards the \$3.50 mark. Bring in, email, or look at our photo albums. Once you know your decorations, we can give you a price quote. Response may take a few business days.

Sizes?

Tell us how many people you plan on serving and we will let you know which size is best for you as well as options that are available. Our serving size for each slice is approximately 1"x2"x4½. The top tier is not included in your servings, you are not charged for it. Consider it a gift from us, traditionally this tier is saved for your first year anniversary.

2 tiers typically serve: 30, 50, 70
3 tiers typically serve: 100, 150, 200
4 tiers typically serve: 250, 300, +

Appointments?

Typically we only make appointments when you are ready to place the order, with a deposit. Once you have determined your decorations we will be able to make an appointment to place the order.
